

An aerial photograph showing a paved road with yellow lane markings running diagonally from the top right towards the bottom left. The road is flanked by dense green vegetation and trees. The overall scene is a natural landscape with a man-made road.

Opportunities and risks of using earth observation for the sustainable management of natural resources

Talk by Dr. Fritz Kleinschroth, Ecosystem Management Group

ETH zürich

When: Wednesday, 10th November 2021, 15:00 PM

Where: Main lecture hall, School of Mines, University of Zambia
